

APPENDIX ONE

TABLES OF DISEASES FOR CHAPTER TWO

TABLE 2.1 - DISEASES IN UNDER-DEVELOPED COUNTRIES

Nutritional	Airborne	Communicable Water-related, vector-borne, and faecally transmitted
Undernutrition and associated vitamin deficiencies	[1] Viral Influenza Pneumonia Measles Chickenpox Smallpox*	[1] Water-borne/related Cholera Typhoid Diarrhoea, dysentries and amoebiasis, infectious Hepatitis, poliomyelitis and intestinal worms
	[2] Bacterial Whooping cough Diphtheria Meningitis Tuberculosis	[2] Water washed (a) Skin and eye infections Trachoma Skin infection (b) Skin infestation Leprosy Scabies Louse-borne typhus*
		[3] Water-based (a) Penetrating skin i.e. Bilharzia (b) Ingested i.e. Guinea worm*
		[4] Water-related insect Vectors (a) Biting near water i.e. Sleeping sickness* (b) Breeding near water i.e. Malaria River blindness*

*Not found in Namibia

(After David Sanders 1984: 27-28)

TABLE 2.2 - HEALTH STATISTICS, UKWANYAMA DISTRICT (1939)

Ankylostomiasis and other worms	11	
Dysentery (amoebic)	2	
Dysentery (bacillary)	7	
Malaria	1614	
Mumps	252	
Tuberculosis (pulmonary)	2	(1 death)*
Syphilis	188	
Gonorrhoea	11	
Rheumatic fever and rheumatism	17	
Snake bite	3	
Ear and mastoid	290	
Ear and annexa	513	
Pleurisy	6	
Penumonia	3	
Diarrhea and enteritis	28	
Gastric ulcer	52	
Gastritis	5	
Diseases of the breast	3	
Carbuncle	2	
Diseases of the skin and annexa	594	
Fractures	14	
Burns	75	(1 death)
Other injuries	353	
Minor ailments	1789	
Minor operations	85	
Total	5919	

*Deaths given are only for those which took place in hospital (source: Loeb 1955a:36).

TABLE 2.3 - INCREASE IN TUBERCULOSIS - OVAMBOLAND

Hospital	1956	1957	1958	1959	1960	1961
Onandjokwe	86	126	127	164	193	242
Nakayale	32	41	54	142	166	182
Engela	44	82	61	85	89	120
Eenhana	16	5	17	32	48	62
Elim	17	27	54	50	27	37
Okahao	5	5	10	15	17	22
Tshandi	-	-	50	50	55	56
Total	200	286	373	533	589	721
